

BIG GERMAN INDUSTRIAL CENTER WAS BOMBED HEAVILY, ITALY GAINS SLIGHT

FIFTH ARMY PROBES GERMAN POSITIONS NORTH OF VOLTURNO

EIGHTH ARMY STORMS HIGH GROUND ON EASTERN SIDE ITALY

By EDWARD KENNEDY
ALLIED HEADQUARTERS, Algiers, Oct. 21.—(AP)—The fifth army has made slight gains in the area north of the Volturno river, it was announced today, and advanced elements are probing the region to determine exactly where the Germans are setting up their new defenses based on Massico Ridge.

The ditches and irrigation canals of this fertile, but now devastated agricultural terrain slowed up the progress of Lt. Gen. Mark W. Clark's troops.

On the eighth army front, Gen. Sir Bernard L. Montgomery's troops stormed the high ground dominating the road running northwest from Vinchiato, occupied Basso, a mountain village about four miles west of Campobasso, and swept into Oratino a few miles to the north.

Basso, situated 2,400 feet above sea level, overlooks Baranello to the south.

Stabbing deeper into the Balkans than on any previous flights, American medium bombers from the Northwest African forces wrecked the roundhouse and locomotives at Nis, Yugoslavia, to lend an assist to the guerrilla forces fighting the Germans there.

Nis, important junction.

Nis lies between Belgrade and Sofia and is an important junction through which the Orient Express passes. From Nis the line branches to the South to Salonika, through Skopje, which recently was raided by the Northwest African air force.

Railway objectives at Nis were left a mass of flaming wreckage by the American B-25 Marauders, escorted by P-38 Lightnings.

Occupation of the high ground west of Campobasso—gleaned by the Germans with great reluctance—was essential for movement of Gen. Montgomery's forces along the important road northwest from Vinchiato toward the road and railway junction of Isernia.

This is the main North-South highway of Central Italy in this part of the peninsula. At Isernia, the road joins the lateral road leading southwest to Venafro, picked by the Germans as the eastern anchor of their proposed Massico ridge line.

Any push of the eighth army along this Isernia road thus threatens the flanks of the enemy forces facing the fifth army.

Patrols active.

Patrols were active in other parts of the Eighth Army front, including the Adriatic area above Termoli.

Wearied as the Germans may be by the long fight along the Volturno and by clashes with the

AUSTRALIAN TROOPS BATTLE JAPANESE IN FINISCHAFEN SECTOR

ENEMY TAKES INITIATIVE AND GAINS SOME INITIAL SUCCESSES

ALLIED HEADQUARTERS in the Southwest Pacific, Oct. 21.—(AP)—Several thousand Japanese and Australian troops waged a bloody battle today in the jungle a short distance north of Finisshafen, New Guinea, with the enemy on the offensive.

From strongly held positions at Sattelberg, 15 miles inland, the Japanese achieved some success in a drive to join another force on the coast and thus form a solid line along the long Salween river mouth, toward which the enemy is on the move, is five miles north of Finisshafen.

This counter-offensive cost the Japanese more than 200 men Thursday in fierce action against elements of Australia's famed Ninth division which captured Finisshafen Oct. 2 and before that had gained battle glory at El Alamein in Egypt against the Germans.

The enemy took the initiative for the first time since General MacArthur, in a swift series of paratroop and amphibious pincer thrusts, began enveloping New Guinea bases from which it would be possible for him to invade New Britain.

It also was the first time in months that the opposing forces had come to grips on such a large scale, indicating Japanese determination not to continue further the withdrawals they made from Salamaua Sept. 12, Lae Sept. 16 and Finisshafen.

But inland from this battle scene other Australians moved slowly up the Ramu valley less than 40 miles from Madang, the next important coastal base northwest of Finisshafen.

In the Solomons, a raiding force of more than 100 American planes added 17 more Japanese planes to the approximately 400 shot down

PLANNING TO CLEAR CONGESTED DOCKET OF DISTRICT COURT

MANY OLD DELINQUENT TAX SUITS FILED AND NEVER TRIED

Correspondence between Judge A. P. Mays and James P. Alexander, chief justice, supreme court of Texas, Austin, revealed Thursday that the Thirteenth Judicial District Court docket is congested, principally through many thousands of old delinquent tax suits filed and never tried.

Judge Mays is dismissing old suits as fast as practicable, and thousands will be off the docket during the October term of court.

Large Number Cases.

The letter of Judge Alexander to Judge Mays, dated Oct. 15, 1943, showed that the Civil Judicial Council examined the statistics of the docket, and reports that from January 1, 1937, there had been 25,742 cases that had been on the docket for more than one year, 24,896 cases that had been on the docket for more than two years, and 21,500 cases that had been on the docket more than five years. I am wondering why there are so many of these old cases on the docket. Of course, there may be a few tax suits that would have to be left on the docket, and possibly a few other cases, but I am inclined to think that there is either something wrong with the statistical report or else the docket is in great need of being cleaned up. In this connection, the Dallas court reports less than 2,000 cases that have been on the docket more than one year. Of course, you are in no wise responsible for these old cases.

In discussing the docket condition.

Distribution of War Ration Book Number 4 Starts

Distribution of War Ration Book Four throughout Navarro county began Thursday morning at the schools and is to be completed by Saturday night. Corsicana schools were closed Thursday and Friday in order that the entire faculty could assist in the work at the ward schools. In some county schools, classes continued, with some teachers assisting in the work, based on local arrangements and conditions.

Corsicana persons with surnames beginning with A, B, C and D were issued the new books Thursday morning with those ending in E, F, G, H and I served Thursday afternoon.

Surnames beginning with J, K, L, M and N will be issued the ration books Friday from 8 a. m. to 1 p. m., while those names beginning with O, P, Q, R and S are slated between the hours of 1 and 6 p. m. Friday.

Saturday is for those names beginning with T, U, V, W, X, Y and Z from 8 a. m. to 1 p. m. while anyone who could not come on the above schedule will be served Saturday afternoon, according to the Corsicana schedule.

Outside the city school area, local conditions may vary. A family may sign for all in the family, excluding those in the Armed forces or in institutions, but not for friends, neighbors or other relatives unless living with the family.

GERMAN ARMIES IN CRIMEA HAVE BEGUN MASS WITHDRAWAL

NAZI COMMAND POURING ALL AVAILABLE RESERVES INTO BRIDGEHEAD

LONDON, Oct. 21.—(AP)—The German armies in the Crimea have begun a mass withdrawal from the peninsula via the Perekop land bridge. Moscow advices indicated today, to escape entrapment by a powerful Russian advance threatening their line of retreat.

Battling furiously to stem the steady progress of the Red army troops pouring through the Kremenchug bridgehead west of the Dnieper river, the German command was said to be throwing all available reserves into the breach. But the Soviet drive, hourly increasing in momentum, smashed further to the west through the Ukrainian Steppe country to overlap the Crimea on the north, a Russian offensive disclosed.

A second Red army column was racing south toward Krivoi Rog, important rail junction and center of the south Russian iron industry, and today was reported within 35 miles of that key German stronghold guarding the last escape railway route from the Crimea.

More than 1,500 nazis were slain in this advance, the Russian communique declared.

Capture of Krivoi Rog would virtually seal off the tens of thousands of Germans huddled in Dnepropetrovsk and in the Dnieper bend above Melitopol, where the Russians expressed the hope of a methodically cleaning out last-ditch nazi units who have been stubbornly holding out for more than a week. Some of the bloodiest fighting of the war was going on inside the city, with the Red army spearheads inching slowly forward at bayonet point, front dispatches said.

Elimination of the German forces in the Dnieper bend, which the Russians indicated was practically assured after yesterday's advances, would leave the way open for a swift Red army drive across the steppes to Perekop.

MOSCOW CONFERENCE CONTINUES ALONG HARMONIOUS LINES

AMERICAN AND BRITISH MILITARY ADVISERS PRESENT AT LONG SESSION

By HENRY C. CASSIDY
MOSCOW, Oct. 21.—(AP)—The tripartite conference dug into its agenda in a harmonious four-hour session yesterday, its longest meeting to date, and the presence of American and British military advisers suggested that a land attack on Western Europe might have been a topic.

Although all official representatives stuck to the rule that nothing about the actual conversations can be made public until the wrap up of the conference, they relaxed sufficiently to say that the atmosphere prevailed throughout the second formal get-together.

Aides participating in the talks will change as they are experts come before the conferees. The call yesterday to U. S. Maj. Gen. John R. Deane and British Lt. Gen. Sir Hastings Ismay to enter the closed meeting room left little doubt that the main topic on the agenda worked out the day before was military.

Deane has been attached to the U. S. army chief of staff's office and Ismay is from the office of the British war cabinet. As their Soviet counterparts, the Russian advisers are high Red army generals.

PRUSSIAN MILITARY CLIQUE IS APPARENTLY BEGINNING CLIMB INTO HITLER'S SADDLE AGAIN

By DEWITT MACKENZIE
It looks as though the Prussian military clique has a foot in Hitler's stirrup, if indeed the old command isn't already in the highest saddle.

This column some time ago suggested that the Prussian war lords were likely to take over control when the military situation reached a point where they saw little or no chance for victory. I said they would maneuver for a peace which would enable them to salvage all they could from the wreckage of Hitler's dream of world domination.

We already have passed the point where Germany's defeat became certain. Now the official German news agency (DNB) reports the holding of a conference which was attended by ranking officers of the high command, many commanding officers, and by "leading personalities of the state and party." And that conference was called not by the

fuhrer but by Field Marshal Wilhelm Keitel, chief of the high command and essence of Russian militarism.

European observers said the conference appeared to be trying to shore up civilian morale and devise means of meeting the military crisis. Hitler made a speech after the conference, but what he said wasn't disclosed.

About the same time this meeting was being held, Swedish newspaper correspondents were reporting—and their dispatches were passed by the German censor—that the reich was seeing its blackest days of the war thus far because of the major break through the Nazi line in Russia.

The correspondent of the Stockholm Aftonbladet said if the Soviet forces can follow up this success, the "Germans realize it can't mean anything but a catastrophe for the reich."

GREAT FLEET RAF HEAVY BOMBERS IN ATTACK ON LEIPZIG

BIG GERMAN CITY LOCATION OF PLANTS BOMBED OUT OTHER PLACES

LONDON, Oct. 21.—(AP)—A great fleet of RAF heavy night bombers out for the eighth time this month, smashed at the Germans' second line of industrial defense last night, hitting the big city of Leipzig where many of the Ruhr's bombed-out industries have moved.

Mosquito bombers roared swiftly over the German capital for the third time this week while other bombers ranged over widespread areas of the Reich.

The RAF lost 17 bombers, the same number as in the last big raid on Hannover Monday. Eight bombers were lost in yesterday's raid by Flying Fortresses on the metal plants at Duere. These losses indicated the Nazi destruction of 60 Fortresses over Schweinfurt a week ago may have been only a break of luck for the German defenders.

The big attack on Leipzig, untried since its sixth raid, on Nov. 23, 1940, came while the Germans, in sharp contrast, sent a tiny force of bombers over England to give London its fifth successive night alert and kill six persons with a handful of scattered bombs.

Leipzig, Germany's sixth industrial city, is situated in the middle of the country, 100 miles southwest of Berlin and almost on the Czechoslovak border.

Leipzig has one of the world's largest railroad terminals on lines linking it with other important industrial centers like Berlin, Regensburg and Kassel, also recently

VICE PRESIDENT HENRY A. WALLACE TALKS ON MONOPOLY

BLAMES RAILROADS FOR CHEATING PUBLIC OF CHEAP TRANSPORTATION

DALLAS, Texas, Oct. 21.—(AP)—Vice President Henry A. Wallace said today that "destructive practices in transportation and suppressive governmental policies under which monopoly thrives must now yield to the needs of the common man."

Wallace, charged in an address to civic and labor leaders here last night that a transportation monopoly has cheated the public of cheap transportation and full industrial development, and by seeking still further power, and added:

"Private rate bureaus and rate-making conferences through which railroad bankers and railroad managers have been able to exact from the people unconscionable rates for rendering an indispensable service must be stripped of their power and their activities confined to legitimate practices in the public interest."

"A clean-cut declaration of legislative policy must insure to the newer forms of transportation an opportunity to develop without suppression. Competition must be restored."

He said the Interstate Commerce commission did not now prescribe all transportation rates as many believed, that actually more than 99 per cent of the rates are set by private rate bureaus and conferences of the carriers became "effective without action by the commission."

Would Solidify Empire.

"Those who guide the destinies of the nation," he said, "must not give sanctuary in Vatican and anti-Nazi refugees who sought sanctuary within its walls, and 'Germany bowed to this decision.'"

Included in the refugees' dispatches the Vatican said, were leaders of the former fascist regime who became prominent anti-fascists after Benito Mussolini's fall. Several members of the Grand Council that voted Mussolini's ouster were believed to have entered the Vatican.

La Suisse's account continued:

Although the Lateran pact of 1929 provides that political refugees may not be given sanctuary in Vatican, the situation has been altered inasmuch as the Holy See still recognizes the government of Premier Pietro Badoglio and the German occupation of Rome in effect abrogates the treaty.

Relations between the Vatican and Germany improved after Luigi Cardinal Maglione, Papal Secretary of State, received assurances that the Reich had no intention "to protect Vatican territory as it had Bohemia and Moravia."

There has been much talk of the Pope's efforts to have Rome recognized as a Holy city by the belligerents in order to save it from the ravages of war. There has been great reserve in Vatican circles regarding this proposal, but the possibility of such an accord is not excluded.

CORSICANA, NAVARRO COUNTY CITIZENS BE ASKED TO GIVE OVER 50 THOUSAND DOLLARS

The Corsicana Community Chest and the Navarro County War Fund campaigns have been united and will be conducted at the same time following action of the chest directors at a meeting Thursday at the Corsicana Chamber of Commerce.

The Community Chest quota is \$30,000 and the War Fund quota is \$22,181 making a total of \$52,181 to be subscribed by Corsicana and Navarro county citizens. The chest quota will be contributed in Corsicana while the War Fund quota is to be raised in both Corsicana and Navarro county.

Campaign Dates.

The dates set for the campaign were announced as November 8 through 13 for advanced subscriptions and November 14 to 20 for the drive proper.

J. M. Dyer is president of the Corsicana Community Chest and Will Thompson is chairman of the Navarro County War Fund.

John Corley was named chairman of the Community Chest drive and city chairman for the War Fund.

Fields Paul will assist Thompson and Boyce Martin was named chairman of newspaper advertising. A. F. Mitchell was named chairman of the advanced gift committee and Robert Dillard was named executive secretary of the two campaigns.

Combine Drives.

Action combining the two campaigns followed full discussion of the matter and it was unanimously decided much more would be accomplished and there would be less confusion by such a policy.

Wayland D. Towner, secretary and general manager, and Neale Sapp, District No. 7 chairman of the United War Chest of Texas, attended the meeting.

The Community Chest will finance nine local agencies and the War Fund goes to 17 major war relief agencies.

Additional committees will be announced as soon as the campaign is completely organized.

Resignation of Brown Accepted As Head of OPA

WASHINGTON, Oct. 21.—(AP)—President Roosevelt accepted today the resignation of Prentiss M. Brown as Price Administrator.

Brown turned in his resignation in a six-page letter dated last Tuesday, in which he said he thought the price control program was well defined in law and in Presidential orders and the main task now is one of administration.

The President is expected to send to the senate soon the nomination of Chester Bowles, general manager of the Office of Price Administration, to succeed Brown.

Bowles prior to becoming general manager of OPA was the agency's director for Connecticut.

Brown, former senator from Michigan who was defeated for reelection, took over the reins of OPA from Leon Henderson less than a year ago.

In his letter to Mr. Roosevelt he said the OPA organization had

VATICAN REFUSED HAND OVER REFUGEES TO GERMAN REGIME

BERN, Switzerland, Oct. 21.—(AP)—A border dispatch to the newspaper La Suisse of Geneva said today the Vatican refused to deliver over to the Germans anti-fascist and anti-Nazi refugees who sought sanctuary within its walls, and "Germany bowed to this decision."

Included in the refugees' dispatches the Vatican said, were leaders of the former fascist regime who became prominent anti-fascists after Benito Mussolini's fall. Several members of the Grand Council that voted Mussolini's ouster were believed to have entered the Vatican.

STRONG WAVES OF BRITISH BOMBERS BLAST GERMAN CITY

ALLIED ARMIES IN ITALY REPORT ONLY SLIGHT GAINS THERE

By RICHARD McMURRAY
Associated Press War Editor.

Strong waves of British bombers pounded the great German industrial and trade center of Leipzig last night and Mosquito planes stung Berlin and western German targets.

The aerial offensive gathered weight as allied armies in Italy made slight gains north of the Volturno river and pressed into the Central mountains to seize the towns of Basso and Oratino.

It was the first attack "in strength" on Leipzig, which lies 111 miles southwest of Berlin and is out-ranked only by the capital and Hamburg as a trade and industrial center. Six lighter raids were made on the city early in the war. The British lost 17 black-winged bombers.

Leipzig has one of the largest railway stations in the world and from its position in Saxony six miles from Prussia, steel rails radiate to Berlin, Breslau, Frankfurt on the Oder, Regensburg, Kassel and Magdeburg.

The smash at the city of 700,000, sixth largest in population in greater Germany, was the first in the continuous aerial offensive against Hitler's roofless fortress. The night raiders took off last evening as Flying Fortresses and Spitfires returned from the Ruhr where they attacked the important non-ferrous metal works at Dueren, important in the manufacture of aircraft.

Night fighters were lost; they and their convoys destroyed 11 nazi fighters.

Near Junction Three Rivers.

Leipzig lies just above the junction of three small rivers, the Pleisse, Parthe and Elster, which flow in or around the city. In 1813, a great decisive battle was fought there and, the remains of Napoleon's grande armee were smashed.

German troops in Russia were reported evacuating the Crimea, gravely threatened by the battle of the Kremenchug bulge west of the Dnieper. In Moscow, the foreign ministers delved harmoniously into joint problems of the United States, Russia and Britain.

U. S. TREASURY HEAD ON TOUR OF ITALIAN BATTLE DISTRICTS

WITH THE FIFTH ARMY IN ITALY, Oct. 21.—(AP)—Secretary of the Treasury Morgenthau traveled today through battle areas of the Italian front with Lt. Gen. Mark W. Clark today and had high praise for British and American soldiers and for AM's work in restoring the city of Naples.

"I am much struck by the young British and American soldiers," he said. "Their faces seemed so alert and they were so evidently in the pink of condition that they seem to be ready for anything."

The secretary noted that water service was being restored in Naples.

"I can assure Gen. Clark that the fighting forces have nothing to worry about the people at home," he added. "They are solemnly behind the war and they'll provide every dollar and every piece of material—and that means a good many dollars and lots of material—necessary to bring about victory."

"My trip to the front has been one of the greatest experiences of my life. I am filled with new zeal and enthusiasm and I am going home to tackle the fourth war loan in the aggressive spirit of Gen. Clark's Fifth Army."

The secretary voiced horror over the sufferings of the Italians and declared "the people in America should get down on their knees and thank God that such things are not happening there. We haven't really begun to make sacrifices in the United States yet. In contrast with what I've seen today our little annoyances seem so small."

"All day I was impressed with the evidence of the ruthlessness of the German enemy—their good of innocent civilians, the peaceful farm buildings and crops they've destroyed, the homes they have ruined. The people at home should see these things."

INJUNCTION FAILS HALT DISMISSAL OF NUMBER TAX SUITS

FORMER DISTRICT CLERK
SEEKING TO COLLECT
CERTAIN FEES

Numerous old delinquent tax suits pending in the district court here Wednesday afternoon, were dismissed by Judge A. P. Mays on motion of J. C. Roe, criminal district attorney of Navarro county, and Edgar A. Hutchins, delinquent tax attorney for Navarro county.

This action was taken despite a temporary injunction writ granted Saturday by District Judge H. F. Kirby of the Seventy-Seventh Judicial District court, restraining and enjoining the commissioners' court, Hutchins, and Halley Blake, assessor and collector of taxes, from compromising or settling delinquent tax suits unless the defendants collect costs allegedly due Mrs. Louise E. Hervey, former district clerk, and restraining the defendants from issuing redemption certificates in tax matters unless the above conditions are observed.

The restraining order was granted by Judge Kirby, Sept. 29, in a case styled Mrs. Louise E. Hervey vs. Edgar A. Hutchins et al. and a hearing was set on the matter for October 9.

District Judge Mays of the local court was disqualified in the case. On Oct. 9, District Judge Roy C. Archer of Austin came to the local bench on an administrative assignment and proceeded to hear the case, disregarding a continuing order of a week granted by Judge Kirby. Judge Archer refused the writ.

The temporary restraining order granted Oct. 16 by Judge Kirby was brought to E. B. Dawson, district clerk, for filing Saturday. Dawson did not file the order until Tuesday afternoon, it was said.

Went to Austin. District Attorney Roe went to Austin Monday relative to a writ of prohibition from the Texas supreme court against the Limestone-Freestone district judge issuing orders in the case. The supreme court did not take any action, Roe said on his return.

The Navarro county commissioners' court several years ago passed an order remitting the costs on delinquent tax suits filed during certain years, and instructing the assessor and collector of taxes to issue certificates of redemption without the collection of said costs.

Doyce Pevehouse, city attorney, counsel for the plaintiff along with J. S. Callicutt, said that approximately \$3,000 in fees were involved in the case.

Roe said Wednesday he planned

RAT ERADICATION CAMPAIGN PLANNED IN CORSICANA SOON

ROUTINE MATTERS DIS-

SION OF COMMISSION

Discussion of rat eradication campaign later in the season, approval of several chauffeur's licenses applications and a discussion of a more vigorous collection of sanitary fees for dry toilets featured the meeting of the city commission Tuesday afternoon. Mayor John C. Calhoun and Commissioners J. Harry Burke and N. F. Garrett were present. Commissioners Fred D. Prince and Travis Fullwood were absent.

A resolution expressing regret and sympathy to Commissioner Travis Fullwood and family on the death of his brother, W. N. Fullwood, at Kilgore, was authorized inserted in the minutes of the commission.

Dr. F. E. Sadler, director of the city health department, said a U. S. government representative in rodent control, was in Navarro county for thirty days. He said that due to typhus at Kerens, a campaign was being organized there, and suggested that the campaign in Corsicana be deferred until January as sufficient poison might be available for Corsicana at that time. He said six weeks would be required in Corsicana.

CORSICANA FORMER SOLDIER FINED IN FEDERAL COURT

DALLAS, Oct. 20. (P)—Aubrey Floyd Wylie of Corsicana told Federal Judge T. W. Davidson today that he went back to the farm after being discharged from the army, made a crop this summer and fall, and got back in the uniform to come to Dallas with the intention of reenlisting, thus leading to a charge of illegally wearing the uniform.

Wylie said he had been discharged from the army because he was over the age of 35.

Assistant United States Attorney Joe H. Jones said in his presentation of Wylie's case to the court, that the man was soliciting financial aid from civilians in Dallas late one night recently with the plea that he was a soldier stranded in Dallas on furlough and needed fare back to camp.

Jones said the man was legally entitled to wear the uniform until he reached home from the service where he was discharged and obtained civilian attire, but not to resume it without being back in the army.

The judge fined Wylie \$10 and suspended a six months' jail sentence on condition that the defendant go back to the farm, stay there, and report regularly to the probation officers.

ESCAPED CONVICT HELD IN OKLAHOMA FOR TEXAS OFFICERS

ATOKA, Okla., Oct. 21.—(AP)—Ernest Cleveland Herring who says he has escaped six times from Texas prison farms, is waiting in jail for Texas officers to come and get him.

He was captured here Tuesday by Harry Bronsfield, a garage mechanic, after an 18-mile chase. State highway patrol officers said Herring represented himself at a garage as being with the owner of an automobile left there. While Bronsfield was getting the bill, they said, Herring sped off but wrecked the car in a ditch 18 miles from here. Bronsfield had given chase, caught Herring when he sought to run away from the wreck and turned him over to Sheriff L. O. McBride.

In jail, Herring told officers he escaped from the Red Eye prison farm in Texas in June of this year, was arrested in Kansas and returned to Texas, but escaped by kicking the officer's car door open.

(The latter escape was at Dallas, Texas, the first of this month.)

Parking Meter Receipts.
Parking meter receipts here for the past week amounted to \$269.36 as compared with \$235.95 the previous week, an increase of \$33.41, according to figures released Thursday morning by J. P. Welch, city secretary.

Wheat was grown in the Jamestown colony of Virginia in 1611.

GERMAN WOUNDED REPATRIATES DON'T BELIEVE REPORTS

By EDWIN SHANKE
ABOARD THE BRITISH HOSPITAL SHIP ATLANTIS, Goeteborg, Sweden, Oct. 20.—(Delayed.)—The majority of the 835 German war wounded and civilians being repatriated from Britain dismiss reports of deteriorated conditions at home as "allied propaganda."

That at any rate, is the impression which British Royal Army Medical Corps attendants obtained in talking to them on the four-day sea journey from England. It is also the impression which I got as I watched German air force and navy personnel transferred from the Atlantis.

"They don't realize what they are going back to," said Fred Brown, an RMAC private. "Three-fourths of the Germans aboard this ship are from bombed cities such as Hamburg, Bremen, Emden, Dortmund, Berlin and Hannover. They don't believe the news, for example, that Stuttgart or Munich have been seriously bombed. Hamburg may have been hard hit, they agree, but the inland cities not at all."

**FUNERAL SERVICES
FOR J. M. GORDON
ARE HELD THURSDAY**

Funeral services for J. M. Gordon, age 91 years, who died at his home here Tuesday afternoon, were held Thursday afternoon at 3 o'clock from the First Methodist church with Revs. E. F. Bohm-falk and H. J. Ellis conducting the rites. Burial was in Oakwood cemetery.

A resident of Corsicana for many years he was active in business and church circles until a few years ago.

Surviving are his wife, two sons, two daughters, a sister, a brother and other relatives.

Sutherland-McCammon directed the arrangements.

Good storage for home canned food must be cool, dry and dark, say home economists of the U. S. Department of Agriculture.

COURT

CONTINUED FROM FIRST PAGE
tions, Judge Mays Thursday said there were few live civil and criminal cases pending as many dismissals have been made in recent months, and that scores of dismissals are being made weekly during the present term of court. Wholesale dismissals of old delinquent tax suits are expected to be consummated within the near future.

Under date of October 19, Judge Mays replied in part:

Delinquent Tax Suits.
"The statistical report of our district clerk is substantially correct. Of the 25,742 cases on the docket of this court, a very large majority thereof are delinquent tax suits which have been filed from time to time over a long period of years and in which no process has ever been issued. These cases are ineffectual for any purpose save to encumber abstracts of title to the properties involved. Recently the commissioners' court, our county attorney and the special tax attorney have concurred with me in the belief that these old tax cases should be dismissed and step have been taken accordingly. However, certain of our officials are at present laboring under a recent writ of injunction granted by Kirby restraining the dismissal of any delinquent tax suit filed by Mrs. Louise Harvey. I have disposed of 137 civil cases and 123 delinquent cases by the dismissal 'for want of prosecution' route. These are in addition to the cases regularly tried. Furthermore, I have set many hundreds of these old cases for trial during the remainder of this term and they will probably all go off the docket by the dismissal route when they are called for trial x x x."

Suits Dismissed.
Twenty old delinquent tax suits were dismissed Wednesday afternoon by Judge Mays upon the motion of Edgar A. Hutchins, Navarro county delinquent tax attorney and member of the legislature from Greenville, and J. C. Roe, criminal district attorney of Navarro county, disregarding a temporary injunction granted Oct. 16 by Judge H. B. Kirby in the case of Mrs. Louise Harvey vs. Edgar A. Hutchins, Navarro county commissioners' court and Halley Blake, assessor and collector of taxes for Navarro county. Judge Roy C. Archer of Austin had previously denied the writ after a temporary restraining order had been granted by Judge Kirby, and a hearing was set and then postponed a week.

THE WAR TODAY

CONTINUED FROM FIRST PAGE
tropes that would put Stalingrad in a shadow.

Over in London meantime South Africa's grand old soldier and statesman, Field Marshal Jan Christian Smuts, was throwing a different shot of the same picture on the screen. Said he:

"Hitler is no longer fighting for victory, but for time—for something to happen—for those accidents which so often upset the run of events. His only hope now is to prolong the war on the off chance of something happening; some new weapon; perhaps some difference among the Allies; war weariness x x x coming to his assistance and producing a stalemate and a compromise peace."

Certainly the complexion of the Nazi conference would support that thesis. It was an extraordinary assemblage for war-time and spoke clearly of a great crisis. Perhaps the most significant fact of all, however, was that this big meeting was called by Keitel and not by the Fuehrer who claims that he was divinely ordained to lead the German people.

The sixty-year old Keitel is the mystery man of the high command—mysterious because he keeps his own counsel and lets others do the talking.

The chief of the high command has been a professional soldier—and a good one—since his youth. He has been Hitler's right-hand military man since the Fuehrer seized power.

Keitel always has had the reputation of being loyal to his friends. He has stood by Hitler and there's no reason to assume that he won't do all he can to save the Nazi chief from suffering as the ax falls.

Still, the bombastic all highest is just a mushroom in the field of Prussian militarism. The military—whom President Roosevelt has promised will be torn up by the roots—will try to save themselves and their type of Germany in this emergency. What happens to the Fuehrer is his own bad luck.

Corporation Court.

A boy arrested on burglary charges in connection with the entering of the Church of Christ and the J. C. Penny Co., recently was turned over to county authorities Wednesday.

Four were fined on overtime parking charges by Corporation Recorder C. L. Knox. Two were cited on overtime parking tickets. One dog was killed and one door was found unlocked.

GERMAN WEAPONS

The war may be over by Christmas, but probably not this Christmas. It is proved by the stubborn German resistance in Russia and Italy, and even more by their recent disconcerting inventions on land and sea.

The world has heard about an unusually destructive new torpedo, which splits ships in two and played havoc with a recent convoy. Then there is the new rocket gun, formidable in anti-aircraft defense. And there have been reports of an even stronger German tank.

A country which has just introduced weapons such as these is not yet ready to throw up its hands.

ADOLF'S TIRE TROUBLE

Maybe it's spare parts that will win this war. Hitler is reported now as having more and more trouble along that line. His equipment wears out, and he's a long way from home. There are not many cars on the continent for him to commandeer. And when he does round up a yardful of jalopies, the chances are that the tires leak badly and the spare parts don't fit.

Plenty of Americans know how that is. But we can nearly always "make do" somehow or other. The usable junk in this country, with a little tinkering, would provide rolling stock for all Europe — except, perhaps, for the little job of setting it down where it's needed.

RELIGION IN RUSSIA

Can it be that the supposedly "Godless Reds" are turning religious again? Color has nothing to do with such a matter, but human nature has a great deal. And there certainly are signs not exactly of a religious "revival" in Russia, but a restoration of religious interest and tolerance.

From that may come a new development of religious faith and practice in Russia, slow but strong. In pre-revolutionary times, when left to their own devices, the Russians were very religious. Their dense ignorance, however, led the masses into lamentable superstition, under corrupt and ignorant leaders. There is less danger of such abuses now, with a more literate and intelligent nation. The Russians seem to be slowly growing modern in their general thinking, as they have been doing in their industry and national defense.

BACK TO GOLD

A herald of new world stabilization, perhaps, is to be found in recent discussions of a return to the "gold standard." This term once had magic in it, both economic and political. It has been seldom heard in late years. Yet it may still be found magical, as normal conditions return.

Says the Guaranty Trust Company of New York: "It is our belief that no method of stabilization yet devised or suggested is so sound or so easily operated as the international gold standard—with free coinage of gold, free markets and private ownership of gold and currencies freely convertible into gold, both for domestic use and for shipment abroad."

How long is it since the average American has seen a gold coin? It would be grand, wouldn't it, to jingle a few in your hand? Not for nothing has gold been

Edgar A. Guest

The Poet of the People

THE BANKER'S WIFE

My Nellie thinks the happiest life
Must be a banker's wife
Who wears a necklace round her throat
And has a lovely ermine coat.
And at the social and the tea
Is one all others strive to please.
As if their men gave this advice:
"Remember now, to her be nice!"

"Remember now, when her you meet
Be smiling, gracious and discreet.
If you are nice as you can be
Her husband may be nice to me.
Be sure to praise her gown and hat.
He may extend my loan for that.
And though to snub her you're inclined,
For goodness sake, don't speak your mind!"

And yet, perhaps the bankers' wife
May have her share of fretful strife
For if, for her, he wears the frown
He shows the customers in town
And keeps his heart as cold to her
She really needs that coat of fur!
All through the years she's doomed
To go Sodomized to hear his cry: "No!"

I wonder if from her he gets
A statement of her little debts
Which, should she falsify, were crime
Before he'll let her have a dime?
If so, then of her wish must be
That she had wed some fool like me

Who, married forty years or so,
Has found no way of saying
"No."

sought and cherished and fought for by men since the beginning of recorded history.

BUSINESS PATRIOTS

It takes a war to bring able soldiers to the front, and likewise to put big business captains where they can do the most good.

Men like Harriman and Stettinius and Nelson and many others of their breed seem more available for government service in recent years than ever before. They have been somewhat handicapped by class prejudice. Slowly, however, the fact is recognized that here are gifted men who would rather serve their country for a few thousand dollars a year, or for nothing at all, than work for the selfish accumulation of useless millions.

At the same time, it seems as if many other young Americans are arising, who never suffered from a millionaire complex, and seem to take public service less as a novelty and more as a matter of course. This has long been the British attitude, but it is comparatively new in America. And those who follow this trend will probably not lose much financially in the long run. Fortunes will hardly be made in the future as they have been in the past. Immense public debts and the means of handling them and a safeguarding national solvency will take the profits out of big business.

CAR PROBLEMS

How many automobiles does a family need? This may soon become a serious question. Cars still in service are estimated at more than 20 millions, but they are wearing out rapidly. A real scarcity exists, and it will grow steadily worse.

So, it is rumored, people with two cars in the family may soon be faced with a demand that they prove their need of such abundant transportation. It is even suggested that a "squeeze play" may be invoked, by the process of refusing gasoline to people who have cars they don't need. It would often be a delicate problem, however, to decide whether the extra car was needed. In many cases an old car is used thriftily to save a better one. What would a disinterested person say about that?

The main thing, perhaps, is to take good care of all cars able to run.

Of course there should be more general sharing of rides. But owners nowadays often fear to carry passengers, because of the big liability in case of accident. There should be some simple and fair solution for that problem.

1943 for many families will chiefly be remembered as the year in which they first tasted oleo.

It's a dreadful thing to talk about a smoke shortage and start a run on tobacco.

83-Year-Old Golf Player Sets Dizzy Record for Others

Here is an encouraging feat for the younger golfers as well as a remarkable example of fine physical condition and stamina for a golfer in the 80s.

H. C. Ballew was 83 years of age Thursday. He boarded a bus Friday and rode the 180 miles to Austin, the capital city, and then played nine holes of golf on an Austin course. Another nine holes were played Saturday. Then Sunday afternoon after 3 o'clock, Mr. Ballew played 18 holes of golf for some kind of a record for endurance of a player of his age. He was back at home Tuesday morning feeling fine and ready to play again, and giving the younger golfers a goal to strive for when they get his age.

Home Brew Coming Back to Texas in Increasing Amounts

AUSTIN, Oct. 21.—(P)—Footing suds of the home-made variety are making a comeback in Texas.

The State Liquor Control Board reports 69 complaints, 31 convictions and \$4,147 in fines as a result of its inspectors' encounters with home brew beer makers in September.

Reason for the increased manufacture of home brew, a rarity since 1933 when 3.2 became legal, is the shortage of the brewery product, the board reported in its monthly publication. The Review. Most home brew complaints were filed in the dry counties of Lubbock, Grayson and Angellina, which had eight each, out the product was also found in Bowie, Gregg and Dallas, where beer is legal.

Hold Demonstration At Womack Orchard

Damage to fruit trees by borers and scale was pointed out as the work of the two most destructive orchard insects common to this area by County agent H. C. Robinson at a demonstration meeting held Monday afternoon at the E. J. Womack orchard north of Corsicana.

"Borers materially shorten the productive life of a great percentage of the peach trees planted in Navarro county," said Robinson. "Gummy exudations filled with sawdust pellets at the ground line of a tree is symptomatic of borer damage. The most effective material now available to use against the borer is paradichloro-benzene, commonly called PDB. It can be purchased at drug stores and should be used between now and mid-November."

Sick and Convalescent.
Miss Gloria Reese is doing nicely following an operation several days ago at the Navarro Clinic. Joe David Norwood had a tonsillectomy at the Waters Clinic. E. C. Smith is a surgical patient at the Waters Clinic. Mrs. O. B. Dean, Dawson, is a patient in the P. and S. Hospital.

SOLDIERS' LONGING FOR HOME
OUTRANKS GLOBAL WAR AIMS*War Is Teaching New Sense of Old Values—
Dad Is Coming Out of the Dog House—
Present Meanings of the Fifth Commandment.

By WILLIAM T. ELLIS

"Though the boys are far away, they dream of home. This war is our greatest education in the value of home. Service men and women are bravely pursuing their duties, primarily in order to get home again. Their thought is less of the great global objectives of the war than of the desirability of home. The family that in peace days was taken as a matter of course, and often treated with indifference, now has a preciousness beyond all other possessions. Dear ones are dearer; mother and father are appreciated as never before. The Fifth Commandment is coming to its own again.

We now freely confess that between the two wars there was a widespread slackening of home ties. Many young persons sought their pleasures outside of the home. Parental authority diminished. The old patriarchal conception of the family survived only in the Orient, where it is carried to the extent of ancestor worship. There the family is all. Modern homes are not planned to hold more than two generations. Even the guest room is frequently lacking. Many elders are lonely, and the worst of fates the prospect of having to live with their children. The care of the old is not regarded as an honor and a privilege, but as a burden. All of which runs contrary to the Fifth Commandment—"the first Commandment with promise," as Paul says—"Honor thy father and thy mother, that thy days may be long in the land which the Lord thy God giveth thee."

He Stands Next to God. There is significance in the position of this Fifth Commandment in relation to the whole ten. It comes next after the four which deal with the duty owed to God Himself. After reverence for the Almighty stand honor for parents. This obligation is put ahead even of the word, "Thou shalt not kill." Respect for father and mother lies at the very foundation of the family and of the good life.

This truth comes clothed in all the awfulness and majesty of Sinai. Yes, and it is also to break the basic law of the reason. The Commandments are not the arbitrary whims of Deity. They are founded on wisdom. They tie society together, in a reasonable ongoing, making organized life possible. If we destroy the home—which is always the result of failure to honor parents—then we knock the props out from under all patterned living.

On the other hand we remember, reverence, obedience, discipline, helpfulness, forbearance—a learned first in the home, which is the finest expression of human achievement. A loving, happy, disciplined home, wherein God is honored and His Law obeyed, is the first station this side of Heaven.

The Big Parade. Of all the great processions I have ever seen the one that moves me most is the most familiar—the daily parade of men going to work and coming home. The fidelity, the devotion, the sacrifice and the efficiency of men, as they undergo daily toil to maintain a family, is a finer spectacle than any military review. There are more heroes in its ranks than in an army. Surely these fathers, who make ultimate sacrifices, are deserving of honor. Many a father who has marched bravely in the big parade of toiling parents returns home to be flouted by over-indulgent and disrespectful children. God is against this.

On the other hand we remember, George (D-Ala), Wagner (D-NY), Thomas (D-Utah), Nye (D-Ind), Murray (D-Mont), Pepper (D-Erk), Guffey (D-Pa), Gillette (D-Ky), Clark (D-Mo), Glass (D-Va), (by proxy), Tunney (D-De), Capper (D-Kan), Vandenberg (D-Mich), White (R-Maine), Shipstead (R-Minn), Nye (R-ND), Davis (R-Pa), and Connally (D-Texas).

Attacked By Night. Medium bombers again attacked the same fields by night, adding new destruction to that already plainly in evidence from the air.

The mediums also hit Cerveteri, also, and the German fleet was destroyed. Other heavy daylight bombers destroyed railroad bridges at Grosseto on the west coast above the Italian capital and at Orvieto, inland on the route between Florence and Rome.

From the Middle East, RAP bombers carried out wide attacks in the Aegean, a Cairo announcement said. Targets included airfields at Melos, Rhodes and Antimachia (C.S.), harbor facilities at Melos, Syros and Cos, as well as shipping.

Representatives Local Red Cross At Regional Meet

Eight representatives of the Navarro Chapter, American Red Cross, attended a regional conference of the national organization in Tyler on Wednesday, in response to an invitation from T. Murray Doyle, chairman, Smith County Red Cross Chapter. The conference was divided into two divisions—Home Service and Junior Red Cross, and gave special emphasis to changes in policy for these two branches of the organization. The conference was held at the City Hall and at Smith County Red Cross Headquarters, and was one of the six that are now scheduled for Amarillo, Wichita Falls, Temple, Corpus Christi, and Big Spring.

Members of the National Red Cross Staff, who served as discussion leaders for the Tyler conference, were Miss Bernadette Michie, Home Service representative, and Miss Lou Eskridge, Assistant Director of Junior Red Cross.

Luncheon was served at the Episcopal Church at noon by the Red Cross Canteen of Smith county, and an interesting program highlighted the occasion.

Mrs. Billie Peck Jr. and A. E. Horn had the pleasure of witnessing the Smith County Red Cross Canteen in action at the luncheon, and visiting Surgical Dressings Headquarters of the county.

Following the conference, the Corsicanans visited Camp Fannin, which is located eight miles from Tyler. Those who attended the conference were Mrs. R. B. Mitchell, executive secretary, Navarro Chapter, Red Cross; Mrs. A. E. Haslam, chairman of home service; Miss Jessie Mae Hilliard, home service secretary; Mrs. J. B. Dawson, Junior Red Cross chairman; Miss Ethel Mae Tatum, chairman of volunteer special services; Mrs. F. R. Young, production chairman; Mrs. A. B. Horn, chairman of surgical dressings; and Mrs. Billie Peck Jr., chairman of Red Cross canteen.

Sgt. J. B. Swink, who is stationed at Luke Field, Arizona, has arrived for a visit with his mother, Mrs. Will Taylor and family.

Beware Coughs Following Flu

After the flu is over and gone, the cough that follows may develop into chronic bronchitis if neglected. Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must take the way it quickly allays the cough or you are to have your money back.

Corley's funeral had charge of the local arrangements.

WPB Committee to Construct Aluminum Plant in Northwest

WASHINGTON, Oct. 21.—(AP)—The production executive committee of the War Production Board (WPB) has decided to approve construction of a \$4,000,000 aluminum-clay plant in the Pacific Northwest, Representative Angell (R-Ore) said today.

The action came after members of congress from Oregon, Washington and Idaho, headed by Angell, protested action of the WPB in ordering discontinuance of all aluminum-from-clay projects in the country. They presented data to show that the nation would be without material to produce aluminum in three years unless the plant was approved.
